

IN-LINE MIXED FLOW DUCT FANS

TD-MIXVENT Series

TD-MIXVENT

In-Line duct fans

Range of **low profile** in-line mixed flow duct fans manufactured in tough reinforced **plastic** (from 160 to 800 models) or with metal casing steel finished in a tough epoxy-polyester paint coating (from 1000 to 6000 models). The unique design of the support bracket allows the motor and impeller assembly to be fitted or removed without dismantling the adjacent ducting.

Motors

160 – 2000 models: Motors are IP44, class B, with ball bearings and safety thermal overload protection.

Direct 2-speed connection and also suitable for voltage speed control.

Electrical supply:

Single phase 230V 50/60Hz.

4000 and 6000 models: Motors are IP54, class F, with ball bearings and safety thermal overload protection.

Suitable for voltage speed control.

Electrical supply:

Single phase 230V 50/60Hz.

Additional Information

MIXVENT TD-T models fitted with a Run-On-Timer adjustable within 1 and 30 minutes and one-speed motor not suitable for speed control.

Three phase models adjustable by inverter control.

The MIXVENT-TD fans offer the ideal in-line duct fan solution for a wide range of general residential or commercial ventilation application into.

Low profile

The low profile of the MIXVENT-TD fans makes them the most effective solution for installations where the space of installation is limited such as false ceilings.

Easy to mount

Fix the support bracket

Place the impeller and motor assembly

Carry out the wiring connections

Connect the ducts

Easy maintenance

The unique design of the support bracket allows the motor and impeller assembly to be fitted or removed without dismantling the adjacent ducting

Flexible mounting position

Can be mounted at any place of the air duct

Models with Run-On-Timer

MIXVENT-TD-T models (from 160 to 800 models) are fitted with an adjustable timer between 1 and 30 minutes and are supplied with a one-speed motor not suitable for speed control

Low noise level

TD-160/100N SILENT model offer very low noise level, with a **motor mounted on silent-elastic-blocks** which absorb the vibrations

■ Design characteristics

The MIXVENT-TD range provides a large number of solutions for small and large ventilation installations.

■ Accessories (see pages from 549 to 551)

Performance curves

- Q = Air volume in, m³/hr and m³/s.
- Pe = Static pressure in mmWG and Pa.
- Dry air at 20°C and 760 mmHg.
- Performance data in accordance with ISO 5801 and AMCA 210-99 Standards.

HS = High speed
LS = Low speed
